

Resolution # 9

Expressing support for the continuation of the Bush Tax Cuts and a lowering of the corporate income tax rate and shrinking the size and scope of government

WHEREAS, the Republican Party promotes limited government and, by logical extension, low taxes; and

WHEREAS, the continued growth in spending and scope of government has created an unsustainable growth in the size of government debt; and

WHEREAS, the United States of America presently has the highest corporate tax rate in the world, thereby stifling growth and the creation of the jobs; and

WHEREAS, the Bush Tax cuts are set to expire this year, which would result in the increase in over 60 different taxes, creating uncertainty in personal and business economic planning which stifles growth and job creation; now therefore

BE IT RESOLVED BY THE ALABAMA REPUBLICAN PARTY, that we petition and request the United States Congress and the President of the United States to continue the Bush tax cuts, lower corporate tax rates and reduce the size and expenditures of the federal government, all of which would result in more jobs and therefore more tax revenues that we would urge be used not to expand government, but to pay off government debt.
