**RESOLUTION URGING THE RESCINDING OF ALL
ARTICLE V CONVENTION APPLICATIONS**

WHEREAS, the Legislature of the State of Alabama, acting with the best of intentions, has previously made application to the Congress of the United States of America to call a convention for proposing amendments to the United States Constitution, pursuant to the provisions of Article V thereof; and

WHEREAS, the Declaration of Independence proclaims that “it is the right of the people to alter or abolish” their form of government whenever it fails to secure their rights, thus implying that a convention of representatives of the sovereign people in an Article V convention for proposing amendments would have the inherent power to propose sweeping changes to the Constitution (also known as a runaway convention) any limitation or restrictions purportedly imposed by the states in applying for such a convention to the contrary notwithstanding – thereby creating an imminent peril to the well-established rights of the citizens and the duties of various levels of government as defined by our present Constitution; and

WHEREAS, the Constitution of the United States of America has been amended many times in the history of this nation and may be amended many more times without the need to resort to an Article V convention, and it has been interpreted for more than two hundred years and has been found to be a sound document which protects the lives and liberties of the citizens; and

WHEREAS, there is no need for – but there is great danger in – subjecting our form of government to sweeping changes that would undermine the philosophical foundation set by the Declaration of Independence and by the Constitution which holds that governments are instituted to protect God-given rights, and to instead create chaos by beginning once again the tumultuous process of litigation over the meaning and interpretation of such changes; and

WHEREAS, the “father of our Constitution”, James Madison, in The Federalist No. 49, advised against calling a constitutional convention except on “great and extraordinary occasions”, but never to restrain “the several departments of power within their constitutional limits”, for this “would be neither a proper nor an effectual provision for that purpose”; and

WHEREAS, the only viable solution for reining in the federal government in our constitutional republic, without risking further loss of liberty, is an informed electorate represented by informed public officials of high moral character, each holding all public officials accountable to our existing Constitution with its principles of limited government, rather than risking a runaway Article V convention; and

WHEREAS, our problems arise from the people and their representatives not knowing and enforcing the present U.S. Constitution; and no amendment can be effective unless and until it can be practicably enforced;

NOW THEREFORE, BE IT RESOLVED by the Alabama Republican Executive Committee that the Legislature of the State of Alabama be requested to rescind all applications by the Legislature of the State of Alabama to the Congress of the United States of America to call a convention to propose amendments to the Constitution of the United States of America pursuant to Article V thereof; and

BE IT FURTHER RESOLVED, that the Alabama Republican Executive Committee urges each member of the Alabama Legislature to oppose any and all other or additional applications to Congress of the United States of America to call a convention to propose amendments to the Constitution of the United States of America pursuant to the terms of Article V thereof; and

BE IT FURTHER RESOLVED, that a copy of this resolution be transmitted to each member of the Legislature of the State of Alabama.

RESOLUTION CALLING FOR REMOVAL OF CONGRESSWOMAN LIZ CHENEY
AS
HOUSE REPUBLICAN CONFERENCE CHAIR

WHEREAS, Speaker Pelosi has repeated numerous falsehoods regarding President Trump's role in the unlawful invasion of the US Capitol on January 6, 2021 and railroaded an impeachment of President Trump through a Democrat Congress based on those false charges; and

WHEREAS, House Republican Conference Chair Liz Cheney has repeated Speaker Pelosi's false and inflammatory allegations regarding President Trump, encouraged and voted for his impeachment, and those actions inflamed divisions within our country in direct contradiction to Vice President Pence's call for all members of Congress and the Senate to make efforts to calm national division and encourage our nation to unify; and

WHEREAS, various Republican members of Congress protested that Congressional Committee actions required in impeaching President Trump were bypassed in order for Speaker Pelosi to railroad an impeachment through the Democrat majority Congress on January 13, 2021; and Senate action could not be completed prior to President Trump leaving office January 20, 2021, yielding the unconstitutional action of the Senate impeaching a private citizen; yet Republican Conference Leader Cheney ignored those issues in her words and actions supporting the Democrats in impeaching President Trump; and

WHEREAS, our nation is divided and strife-ridden to the point of friendships and families being irreparably harmed, and the action of impeachment inflames those feelings, and the action of impeaching a former President who is now a private citizen brings international ridicule upon our Congress; and

WHEREAS, Congresswoman Liz Cheney is a duly elected member of Congress from the state of Wyoming and is accountable only to her constituents for her representation as a member of Congress, however, as Republican Conference Chair Congresswoman Liz Cheney is accountable to the members of the House Republican Conference and to the members of the national, state, and local Republican parties to represent Republican positions and values; and

WHEREAS, during the nation's history, Congress has changed the number of justices, both increasing and decreasing, seven times prior to 1869, for the purpose of gaining political advantage for a then-current political position; and

WHEREAS, the practice of “packing the court” for political advantage greatly decreases public confidence that the Supreme Court exists as an essential element of America's system of checks and balances which guarantees and protects a citizen's constitutional rights; and

WHEREAS, the “Keep Nine Amendment” was introduced as House Joint Resolution 95 in the House of Representatives on September 24, 2020 with bipartisan sponsorship by then Representatives Collin Peterson (D-MN) and Denver Riggleman (R-VA), with co-sponsors Mo Brooks (R-AL5), Michael San Nicolas (D-GU- At Large), Doug LaMalfa (R-CA1) and Ken Buck (R-CO4); and

WHEREAS, a number of former state attorneys general oppose “packing the court”, and recent polls have shown that voters support a “Keep Nine Amendment” by more than a three to one margin; and

WHEREAS, Democrats have refused to remove packing of the Supreme Court from consideration, and the Biden White House is currently forming a study Commission on Supreme Court reform that has “court expansionists” as its leaders; and

WHEREAS, since Democrats were successful in gaining control of the Senate, House of Representatives and the White House, the introduction of the “Keep Nine Amendment”, and its popularity among Americans, should serve as a check to this self-serving chicanery; and

WHEREAS, patients receiving care from hospitals and nursing homes have routinely been separated by such policies from family, friends and spiritual communities; and

TO USE THEIR INFLUENCE AND
REMOVE IMPEDIMENTS TO USE OF HYDROXYCHLOROQUINE**

WHEREAS, Dr Steven Hahn, Commissioner of the Food and Drug Administration, states that the decision about prescribing Hydroxychloroquine to treat COVID-19 should be between a doctor and a patient; and

WHEREAS, the *American Journal of Medicine*, a leading U.S. Medical journal announced the medicine, Hydroxychloroquine can effectively treat the corona virus. This came after nearly a year of Democrats and the mainstream media endangering lives by falsely claiming the medication was dangerous (One American News, Pearson Short Reports of January 30, 2021); and

WHEREAS, Dr Harvey Risch, the renowned Yale epidemiologist, published an article in May 2020 in the *American Journal of Epidemiology* titled "Early Outpatient Treatment of Symptomatic, High-Risk COVID -19 Patients That should be Ramped-Up Immediately" as key to the Pandemic Crisis; and

WHEREAS, U.S. Physicians, and thousands of physicians across the globe, are successfully using Hydroxychloroquine, combined with Zinc and Azithromycin as a "cocktail" for early outpatient treatment of symptomatic, high-risk individuals; and

WHEREAS, veteran virologist Dr Steven Hatfill of George Washington University Medical Center, wrote in the August 20 issue of the *Federalist* that there are now 53 studies which show positive results of Hydroxychloroquine in COVID-19 infections; and

WHEREAS, although the drug has been used for 65 years without warnings (aside from the need for periodic retinal checks), the FDA somehow felt the need on June 15, 2020 to send out an alert asserting that the drug is dangerous; and

WHEREAS, articles published in top medical journals such as the *New England Journal of Medicine* and *Lancet*, regarding the dangers of Hydroxychloroquine had to be retracted based on the fact that the data was fabricated. According to Dr Harvey Risch, there is no evidence based on the data to conclude that Hydroxychloroquine is a dangerous drug; and

WHEREAS, an economy in shambles, suicides and drug overdoses at a record high, people neglecting and dying from other medical conditions, and America reacting to every outbreak of COVID-19 with another lock-down. It is time to re-think our strategy and consider the approach that thousands of doctors around the world are using; and

WHEREAS, people should have the right to choose, along with their doctor, if they want to use the medicine prophylactically; and

WHEREAS, the government has inserted itself in a way that is unprecedented in regard to a historically safe medication by not allowing patients the right to choose along with their doctor; and

WHEREAS, Licensees should not fear disciplinary action simply for expressing their support of specific COVID-19 treatments like Hydroxychloroquine;

WHEREAS, the HCQ cocktail has the potential of being a great help. If third world countries can use it, surely our citizens can too;

NOW THEREFORE, BE IT RESOLVED that the Alabama Republican Executive Committee hereby petitions the Alabama Legislature to obtain clarification on the use of Hydroxychloroquine, as was done recently by the Texas Medical Board, in order to give the citizens of Alabama the right to decide, together with their physicians, on outpatient treatment of COVID-19 infections with the HCQ cocktail.
